

***APPROVAL FORM of  
Conflict of Interest, Patient Informed Consent, and Ethical Treatment of Animals***

It is the policy of the Nobel Medicus to ensure balance, independence, objectivity, and scientific rigor in the Journal.

All authors are expected to disclose to the readers any real or apparent conflict(s) of interest, with pharmaceutical companies, biomedical device manufacturers or other corporation whose products or services may be related to the subject matter of the article or who have sponsored the study, that may have a direct bearing on the subject matter of the article. The intent of the policy is not to prevent authors with a potential conflict of interest from publication. It is merely intended that any potential conflict should be identified openly so that the readers may form their own judgments about the article with the full disclosure of the facts.

By signing this form, it is deemed as all the authors declare Nobel Medicus that Animal care was in compliance with recommendations of the Guide for Care and Use of Laboratory Animals, of local and National Guidelines.

Nobel Medicus expects that all Authors follow up ethical regulations regarding Patient's rights.

The corresponding author will complete and submit this form to the Publisher contact person on behalf of all authors.

- I have a conflict of interest, as described in the attached document.
- I have either no or inconsequential conflicts of of interest.
- I declare Nobel Medicus that Animal care was in compliance with recommendations of the Guide for Care and Use of Laboratory Animals, of local and National Guidelines.
- I declare that I followed ethical regulations required by local and national authorities regarding Patient's rights.
